ICAR-CENTRAL INSTITUTE OF FISHERIES EDUCATION

ICAR-Central Institute of Fisheries Education (CIFE) is a leading Fisheries University having a distinguished heritage and has nurtured many illustrious scholars and leaders over the years. In over 50 years of existence, CIFE has emerged as a centre of excellence for higher education in fisheries and allied disciplines. The Institute was established on 6th June 1961, under the Ministry of Agriculture, Govt. of India with assistance from FAO/UNDP. Recognizing the pivotal role played by CIFE in human resources development in fisheries, the institute was conferred the status of Deemed-to-be-University on 29th March 1989. ICAR-CIFE, is a knowledge powerhouse and a brand name in fisheries higher education

ICAR-CIFE KAKINADA CENTRE AT A GLANCE

ICAR-CIFE Kakinada Centre is one of the nodal centers imparting training programmes on various aspects of brackishwater and freshwater aquaculture. The centre has been playing a key role in bringing "Blue Revolution" in Andhra Pradesh by its intensive efforts on HRD, Extension and Research activities.

FACILITIES

GENESIS OF SKILL DEVELOPMENT CERTIFICATE COURSE

The absence of qualified technical staff in the hatcheries and aquaculture farms is having its cascading affect on the aquaculture in the entire country, as the hatcheries has to supply the fish/ shrimp seed to aqua farmers and in turn aquaculture has to produce the fish as per the requirement of the growing populations. In view of these a year-long certificate course in 'Fish Farming and Hatchery operation' is being introduced for the first of its kind by the ICAR-Central Institute of Fisheries Education (CIFE), the certificate course is expected to provide qualified manpower to the aquaculture industry in the years to come

Skill Development Certificate Course Details

The duration of the certificate course is one year. The course consists of theory, practical and field visits. During the one year the students will be taught about the basics of fish farming and hatchery operations and the different areas covered by the course are as follows:

- 1.Principles of aquaculture
2. Soil and water quality management in aquaculture
3. Management of farm machinery
4. Freshwater aquaculture
5. Brackish water aquaculture
6. Feeding and feed management in aquaculture
7. Shellfish hatchery management
8. Harvest and post-harvest management
